

THE CONTINUING COMMITTEE

First Edition Recent Rulings Document

(3 July 2023)

The Recent Rulings Document lists all Glossary updates and new temporary rulings issued since the last *regularly scheduled* rules update. Rules updates are scheduled for the first Monday of each month and for the official release day of any new expansion set.

Because the Glossary and Rulebook are kept continuously up-to-date, there is no need for players or tournament directors to consult the RRD, as long as they have the most recent posted copy of those core documents.

Any player who does *not* have the most recent monthly Glossary or Rulebook but wishes to play by current, official rules will need to collect and save each new Recent Rulings Document until reprinting the core documents. (Old RRDs are archived *unofficially* at the [Starship Excelsior Rules Archive](https://www.trekcc.org) while we work on a permanent on-site solution.)

Unless announced by the Rules Manager or Director in an expressly designated Official Ruling, answers given by Continuing Committee representatives are not official until included in an official rules document such as the Glossary. We recommend that Tournament Directors consider unofficial answers, but, until an Official Ruling is made, the Tournament Director reserves final ruling authority.

For additional resources or to find answers to your questions, please visit <http://www.trekcc.org>. *[[Double square brackets]] indicate card links.*

GLOSSARY UPDATES

Genetronic Replicator –

Replace with:

As the card states, the 2 MEDICAL required to prevent the death must be present in the crew or Away Team with the personnel selected to die (e.g., in the combat group for a personnel battle, or in the Away Team facing a dilemma).

As the card also states, the MEDICAL must not be targeted to die when Genetronic Replicator is activated. For example, Genetronic Replicator cannot save anyone from **Barclay's Protomorphosis Disease**, because all personnel present (including all MEDICAL) are targeted to die, and a MEDICAL personnel cannot save itself from death by using Genetronic Replicator.

As always, the 2 MEDICAL must not themselves be stunned, disabled, mortally wounded, or otherwise unable to use their MEDICAL.

See **Rulebook 7.4.1: Personnel Battle**.

Adjusted for errata.

RULEBOOK UPDATES

2.1 Missions –

After the second paragraph, insert this new third paragraph:

The opponent's side of the mission contains a convenient mission summary. However, the information on the opponent's end may be different from the information on your end. You may only use (or alter) the requirements, gametext, attemptability, point box, and span facing you, ignoring the corresponding information on opponent's end (and vice versa).

Part one of a clarification about how attemptability icons work, especially at asymmetric missions.

2.1.0.3 Asymmetric Missions –

Replace the entire sidebar with this:

The "regular" attemptability icons ([FED],[CAR], etc.) and the "summary" attemptability icons ([fed], [car], etc.) are normally equivalent. For example, if a card plays on "a [ROM] mission," you can seed it at a mission with a [ROM] *or* [rom] icon facing you. (Remember: you ignore your opponent's end.)

However, when a card uses *both* the "regular" and "summary" icon, it is overriding the general rule and instructing you to look at (or alter) *both* ends of the mission. For example, when **Cold Station 12** seeds "at a [STA] or [sta] mission," it may seed at your opponent's **Intercept Dignitary**, even though a [STA] icon only faces your opponent.

Part two of the attemptability clarification.

FORMAT UPDATES

Warp Speed increments to Version 1.1.1. The only change is that the recommendation for Constructed now reads "all Delta Quadrant locations" instead of "all Delta Quadrant missions." This change allows Museum of Kyrian Heritage (a Delta Quadrant location that isn't a mission) to remain in the format as intended, and future-proofs against future changes.

TEMPORARY RULING UPDATES

The temporary ruling about unique dilemmas and Disrupted Continuum remains in place this month.

See the Glossary for the full list of current temporary rulings.
