Section 1: Introduction	Section 2: Rulings

Section 1: Introduction

Updated November 25, 2002

This Current Rulings document is the official supplement to the *Star Trek* CCG Glossary version 1.8 published in August 2002. A complete set of *Star Trek* CCG First Edition rules, which should be used by tournament directors in making tournament rulings, consists of Glossary Version 1.8, the latest version of the Current Rulings, and, (after the release of Second Edition) the latest version of the First Edition Conversion Rules. (The Rulebook is intended as a simplified starting point for beginning players and should not be used as a definitive guide to the rules.)

A few entries in the previous version of this document have been deleted but are still in effect, as they were already included in Glossary Version 1.8. Also, the special rulings for the 2002 World Championships have also been deleted

Using this document: When a ruling or card question arises, you should check this document first, followed by the Glossary, using the card name, game text word or phrase, concept, or card type. A Current Rulings entry will usually state if it replaces all or part of a Glossary entry; otherwise, the entry supplements any previous Glossary entry.

Rules questions which are not covered in the Glossary, Current Rulings, or First Edition Conversion Rules may be emailed to trekanswers@decipher.com.

Although rulings and clarifications may be made by Decipher personnel in various forums, they are not considered official unless specifically noted or included in an officially published rules document. Such unofficial rulings are highly recommended for use by tournament directors, but the TD always has the final authority on rulings.

Δ An entry preceded by a Delta symbol represents a *change in gameplay* since the last Current Rulings. If only part of the entry is new, it will be underlined. To give tournament directors and players a chance to familiarize themselves with these gameplay changes, they will not be effective until one week after the date of this document.

§ An entry preceded by a section symbol is a *new or changed entry* since the last Current Rulings, which either emphasizes existing rules, clarifies text where no clear rulings yet exist, answers a frequently asked question, or rewords or reproduces an existing rule or ruling. Such entries are either already in effect due to previously published material, or are effective immediately.

Cross-references that have no corresponding entries in the Current Rulings refer to entries in the Glossary. Entries are arranged alphabetically, ignoring apostrophes and quotation marks and treating hyphens, dashes, and colons as spaces. Entries for specific cards starting with "The" are sorted according to the second word of the card title (e.g., the entry for The Emissary is in the E's, not the T's). Universal Borg drones are listed by their designations (e.g., Interlink Drone, not Nine of Eleven); unique drones are listed by their card titles (e.g., Seven of Nine). Text in square brackets represents an icon. Refer to the Glossary for a complete icon legend.

Section 2: Rulings

Δ conversion rules
See **Second Edition cards**.

Defend Homeworld
The "compatible ships, leaders, [and] SECURITY personnel" that you may download with this objective when your card is attacked at a homeworld must be **compatible** with the card that was attacked (and with each other, if they are mixing).

§ dual-personnel cards
See Glossary.

§ Edo Probe
See Glossary.

Δ First Edition conversion rules
See **Second Edition cards**.

Kahn
This glossary entry title is mis-spelled and should read "**Khan**".

Khan
Mis-spelled "Kahn" in Glossary 1.8 and incorrectly alphabetized under that spelling.

§ matching commander
See Glossary.

Nexus, The
Personnel under The Nexus are not considered **present** with each other. They cannot battle each other, or enable or use any text that requires them to be present with another personnel.

Ocular Implants
Delete the Glossary entry, which was made obsolete by the updated **present** ruling.

§ present
See Glossary.

quadrant rule
The glossary cross-reference should read: See **report**.

Quark's Bar
The glossary cross-reference should read: See **report**.

scouting locations
Replace the second paragraph of this Glossary entry with the following:

Before you may scout a location, you must have an activated current objective which specifically allows you to scout that location. A dual-icon mission may be targeted either as a space or a planet location, but only one Borg objective may be completed at any one mission location (either single- or dual-icon).

Δ Second Edition cards
Second Edition cards which have a "First Edition Compatible" indicator (a colored bar) in the lower left corner may be used with First Edition rules. A few rules are required for conversion of new features and skills when mixing Second Edition and First Edition cards. These rules may be found in the separate rules document "First Edition Conversion Rules" dated 11/26/02.

First Edition cards may *not* be mixed with Second Edition cards for use with Second Edition rules.

Starship Excelsior
This ship has **special equipment** providing one Stellar Cartography skill. This skill may be used to overcome space dilemmas or satisfy requirements of space missions.

U.S.S. Excelsior
Delete this glossary entry. It belongs under **Starship Excelsior**.

§ World Championship special rulings
These rulings, which applied *only* to the 2002 World Championships, are cancelled.
