## DILEMMA

**[S] ANKARI "SPIRITS"**  
 Nucleogenic life-forms that relentlessly assaulted U.S.S. *Equinox* in retaliation of the crew's murderous actions. Their attack causes a thermolytic reaction, desiccating every cell in a victim's body. **Unless 3 Honor and INTEGRITY>35 present, place on ship. Now and start of each turn, kills two crew members (random selection). Cure with 3 ENGINEER and Exobiology.**  
 Borg: 1 R

**[S/P] IMPRESSIVE TROPHIES**  
 Hirogen hunters always search for prey that provide the greatest challenge — and the most unique relics to adorn their ships. **Unless CUNNING>50, crew or Away Team member with the most • icons OR highest CUNNING + STRENGTH (opponent's choice) is captured. Discard dilemma.**  
 Borg: 2 U

**[S][3] INVASIVE PROCEDURES**  
 Sivani researchers covertly boarded U.S.S. *Voyager* in 2374. Using a phase variance to avoid detection, they performed invasive, and sometimes fatal, medical tests on the crew. **Unless a [Def] Borg OR MEDICAL, CUNNING>35, and a phaser or disruptor present, place on ship; quarantined. Each crew member loses first-listed skill and is attributes all –2.**  
 Borg: 3 U

**[S][2] PHOTONIC ENERGY BEING**  
 A noncorporeal life-form took hostages when another of its kind was unknowingly captured and experimented on by the *Voyager* crew. The Doctor ultimately negotiated their safe return. **Three crew members (random selection) are held with dilemma atop mission; discard all when countdown expires. Cure with [Holo] personnel OR Anthropology and Diplomacy.**  
 Borg: 4 U

**[S] REPLICATOR ACCIDENT**  
 Nucleonic radiation from the explosion of a stolen — and incorrectly installed — food replicator mutated the cells of a Kazon-Nistrim crew, fusing them with inorganic matter. **Ship is damaged and entire crew is killed unless ENGINEER, Physics, and CUNNING>30 present. Discard dilemma.** [5 PTS]  
 Borg: 5 R

**[P] SABOTAGED NEGOTIATIONS**  
 Kathryn Janeway convinced several Kazon majes to hold a peace conference with the Trabe leader Mabus. He in turn betrayed her trust and attempted to massacre the Kazon leadership. **To get past, four personnel present (random selection) "attend a conference." If their total INTEGRITY<24, each one without Treachery x2 is killed.**  
 Borg: 6 U

**[S/P] THE CLOWN: BENEATH THE MASK**  
 The Clown was most interested in the minds of those who had truly known fear and could appreciate what he represented. He was most unreasonable when dealing with anyone less. **To get past, one personnel must have total attributes>23.**  
 Borg: 7 U

**[S/P] THE CLOWN: MY FESTIVAL**  
 The subconscious world of the Kahl settlers turned nightmarish when a character arrived to embody their anxiety and fears, playing games with them according to his own malicious rules. **To get past, crew or Away Team must have no fewer personnel than lowest INTEGRITY present and no more personnel than highest INTEGRITY present.**  
 Borg: 8 R

**[S/P] THE WEAK WILL PERISH**  
 During brief telepathic connections, Kes learned the purpose of Species 8472's invasion of the Delta Quadrant. As the Borg discovered, they were quite capable of carrying out their threats. **Kills each personnel who has any printed attribute<5 and each ♦ Borg drone present. (Immune to Adapt: Negate Obstruction.)**  
 Borg: 9 R

## DOORWAY

**[BO] TRANSWARP NETWORK GATEWAY**  
 Seed one during facility phase on any spaceline end OR play on any spaceline location where you have a [Nav] Borg. Any player may play a Transwarp Conduit (or another copy of this doorway) to allow moving any or all of that player's ships from this Transwarp Network Gateway to another. OR Downloads Transwarp Conduit (discard doorway).  
 Borg: 10 C

## EQUIPMENT

### BORG DATA NODE

Borg information storage unit containing assimilation logistics, sensor telemetry, and vessel movements. *Voyager* salvaged these from the wreckage of a destroyed probe in 2375. **If present with a [Com] Borg, once each turn, may download one Adapt card to hand OR glance for 10 seconds at crew of any one ship or top card of any player's draw deck.**  
 Borg: 11 U

### BORG NANOPROBES

Submicroscopic robots saturating a Borg's bloodstream. Injected into potential new drones, beginning their assimilation. Modified by the *Voyager* crew to use as a weapon against Species 8472. **Once per turn, where present, may abduct and assimilate one personnel just stunned by your [Def] drone OR nullify a Species 8472-related dilemma (except Gravimetric Distortion).**  
 Borg: 12 U

### BORG VINCLUM

Functions: Process and disseminate information relevant to the collective. Establish transneural connections between drones. Purge individuality; bring order to chaos. **If your [Com] Borg present, all your Borg at this location present with a [Com] Borg share regular skills (each has every such skill at highest level). (Immune to Disruptor Overload.)**  
 Borg: 13 C

### HIROGEN DISRUPTOR RIFLE

Extremely high-powered weapon favored by Hirogen hunters. Constructed of solid monotonium. Over one meter in length. Equipped with a short-range tactical scanner for tracking prey. **Hirogen use only. Each of your Hirogen present is STRENGTH +4 and CUNNING +2, but loses all Diplomacy unless aboard your ship. (Cumulative.)**  
 Borg: 14 U

### HIROGEN TALON

After cornering or capturing their prey, many Hirogen hunters prefer to use a simple blade weapon to prolong the exhilaration of making the kill. **Hirogen use only. Reports for free. Each of your personnel present is STRENGTH +1. (Cumulative.) May report to a just-initiated personnel battle involving your [Hir] card(s).**  
 Borg: 15 C

### MATURATION CHAMBER

Functions: Prepare neonatal drones for integration into the collective. Protect and accelerate development. Restructure synaptic pathways; facilitate formation of thoracic nodes. **Once each turn, you may download to Chamber one ♦ drone in place of one card draw OR report to Chamber one ♦ drone (for free).**  
 Borg: 16 U

## EVENT

**[BO] ACTIVATE SUBCOMMANDS**  
 A single Borg cube often carries of a complement of over 64,000 drones. Most remain dormant in their alcoves until activated to perform a specific task. **Downloads one [Com] Borg drone, one [Nav] Borg drone, and one [Def] Borg drone. Discard event and draw no cards this turn.**  
 Borg: 17 C

**[BO] ALAS, POOR DRONE**  
 The Borg Queen searched tenaciously for the interlink frequency connecting the errant drones of Unimatrix Zero. Analyzing those she had discovered brought her closer to finding them all. **Plays on table. Once each turn, you may discard a [Com] or [Def] drone from hand or in play to draw one card (or two if drone was present with your Borg Queen).**  
 Borg: 18 U

**[BO] CRANIAL TRANSCIEVER IMPLANT**  
 Borg implant that interprets and logs all instructions sent to a drone. Operates on an array of transpectral frequencies capable of transmission across hundreds of light-years. **Plays on your drone; it is CUNNING +2. If a [Com] Borg, once each turn, you may download any [BO] objective OR discard your current objective.**  
 Borg: 19 C

### MEDITATION

*"A-kaa-chee-moya... to my father... Kolopak... if you can hear me among these unnamed stars, I ask you to continue to watch over me as you've always done... A-kaa-chee-moya."*  
**Plays on table. At any time, you may discard one card from hand. For rest of that turn, each time you draw a card, you may do so from the bottom of your draw deck.**  
 Borg: 20 U

**[3]** **OMEGA PARTICLE**  
Unstable molecule that can power an entire planet — or render warp travel impossible in the wake of its explosion. Designated Particle 010 by the Borg, who regard it as harmonious perfection.  
**Plays on your outpost; any player may download Omega Directive or Harness Particle 010. When countdown expires, destroys outpost and all ships here; mission is span +3.**  
Borg: 21 U

**QUANTUM SLIPSTREAM DRIVE**  
Advanced technology that can propel a ship many times faster than warp drive. Though the *Voyager* crew never reliably adapted the system, the Think Tank still took interest in the theory.  
**Plays on your ship that has full RANGE available (for free if U.S.S. Dauntless). Move ship to end of another spaceline OR elsewhere on same spaceline. RANGE is used; discard event.**  
Borg: 22 C

## FACILITY

### ❖ Borg Outpost

**[DQ]**  
IDENTIFICATION: BORG OUTPOST  
TASK: Distribute resources in specified unimatrix.  
**Seed one at any [S] mission with no affiliation icons OR build at such a mission (or at an assimilated planet) where you have a Borg ENGINEER. ▼ Transwarp Network Gateway**  
[Borg] OUTPOST SHIELDS 48  
Borg: 23 C

### \* Unicompex

**[DQ]**  
IDENTIFICATION: BORG UNICOMPLEX  
TASK: Centralize all collective operations. Coordinate.  
**Seeds or plays at any [S] mission with no affiliation icons. Once each turn, Borg Queen OR one unique drone OR one unique ship may report for free here.**  
[Borg] OUTPOST SHIELDS 74  
Borg: 24 R+

### ❖ Hirogen Outpost

**[DQ]**  
For 100,000 years, the nomadic Hirogen have hunted prey, establishing outposts throughout their territory.  
**Seed one at a [Hir] mission or any [S] mission with no affiliation icons OR build at such a mission where you have a Hirogen ENGINEER. Has a Holodeck. ▼ Hirogen Hunt**  
[Hir] OUTPOST SHIELDS 34  
Borg: 25 C

## INCIDENT

**CORTICAL NODE IMPLANT**  
Plays on your Borg. If a [Com] Borg, once each turn, may “transfer data” if present with a Borg Data Node: draw one card (may not be converted to a download). Also, each of your Borg with a Cortical Node Implant may, once every turn, suspend play to “regulate implants”: subtract 2 from any attribute and add 2 to any other attribute until end of turn.  
Borg: 26 C

**[NA][Ret]** **FEEDBACK SURGE**  
Seeds or plays on table. If opponent completes Establish Gateway targeting a mission they did not seed, you score those points (instead of opponent). Also, if opponent discards any seed cards using Ajur, Boratus, Senior Staff Meeting, or their own dilemma, you may immediately re-seed them under any mission(s); opponent loses 10 points for each such card.  
Borg: 27 U

**HIROGEN HUNT**  
Seeds or plays on table. In place of a card draw, you may download Rituals of the Hunt, Hirogen Hunt, or any [Hir] ship. Also, once each turn, you may report an Alpha-Hirogen (or any [Hir] card that names in its lore an Alpha-Hirogen you already have in play) for free. OR Plays on your [Hir] ship; its transporters may be used to beam through SHIELDS of any damaged ship here (even if landed).  
Borg: 28 C

**RELICS OF THE CHASE**  
Seeds or plays on table. Once per battle, your Hirogen may capture an opposing personnel he just stunned. Also, once each turn, your Hirogen using a Hirogen Talon may place in point area one personnel he just killed in personnel battle (or, if he is an Alpha-Hirogen, one captive he is escorting); score points equal to that personnel's highest printed attribute.  
Borg: 29 U

**RITUALS OF THE HUNT**  
Plays on your prey (any opponent's personnel); you may return incident to hand at any time. (Unique.) *Know your prey.* Your Hirogen who have Anthropology add prey's printed regular skills. *Stalk your prey.* Your equipment and [Hir] personnel may report aboard your [Hir] ships. *Capture your prey.* If present with prey, your Hirogen using Hirogen Talon may capture them (discard incident).  
Borg: 30 C

## INTERRUPT

**[BO]** **ADAPT: MODULATE SHIELDS**  
Phased energy weapons are of limited effectiveness against the Borg. After only a few discharges, a hive is able to modify the personal shields of its drones to absorb any further attacks.  
**Plays and remains on a phaser or disruptor just used to stun or mortally wound one of your [Com] Borg. Your Borg are immune to all weapons with that exact card title.**  
Borg: 31 U

**[BO]** **ADAPT: NEGATE OBSTRUCTION**  
By 2375, the Borg had encountered and catalogued over 10,000 different species. This vast, accumulated knowledge is sufficient to overcome virtually any obstacle.  
**Nullifies a dilemma (except a Q-related dilemma) just encountered by your [Com] Borg if your Borg encountered that dilemma (or a copy) on a previous turn.**  
Borg: 32 C

**[BO]** **AWAKEN**  
The Borg do not typically take preemptive measures against potential hazards. Once a threat is established, however, resources are allocated both swiftly and efficiently.  
**Downloads one [Com] or [Nav] drone. OR Plays at start of battle to download to one of your ships at that location one [Def] drone (two if opponent initiated the battle).**  
Borg: 33 C

**MULTIVECTOR ASSAULT MODE**  
New technology designed for the U.S.S. *Prometheus*, allowing it to split into three separate ships during a battle. Programmed with hundreds of computer-controlled attack patterns.  
**Plays at start of battle (once per battle) involving your U.S.S. Prometheus OR at least three of your ships. One of those ships is WEAPONS and SHIELDS +5 until end of battle.**  
Borg: 34 U

**NARROW ESCAPE**  
The writings of ancient Chinese philosopher Sun Tzu on the art of warfare are still taught at Starfleet Academy. “He will triumph who knows when to fight... and when not to fight.”  
**Plays on your staffed, undocked ship if its SHIELDS are less than half of opponent's total usable WEAPONS here. You may immediately move ship up to its total RANGE.**  
Borg: 35 U

## MISSION

\*, [Inc], [Obj]: *Perfection achieved.* Place on location; discard Particle. Doubles point boxes of your subsequently completed [BO] objectives.  
**[30 PTS]**  
Borg: 47 R

**[NA]** **OMEGA DIRECTIVE**  
Seeds or plays on table. Place on your ship with matching commander aboard. (Nullified if no [Cmd] personnel aboard.) While ship is at same location as an Omega Particle, it may ignore affiliation attack restrictions, and end of each turn you must probe:
